

printing barcodes

Here are the steps necessary for printing barcodes for the National Jukebox project. These instructions assume that you have already generated a .bcd file in sonyproject.com and have transferred said file to a computer connected to a Zebra barcode printer. Instructions for that process can be found [here](#).

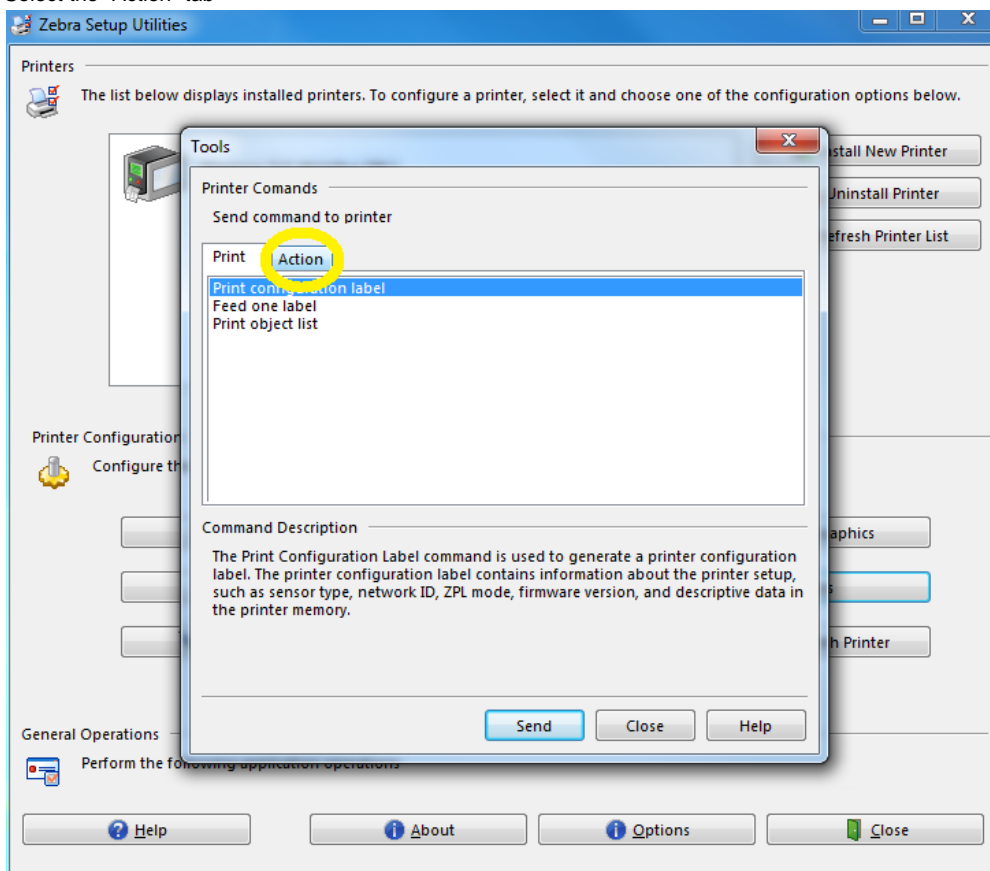

1. Open Zebra Setup Utilities

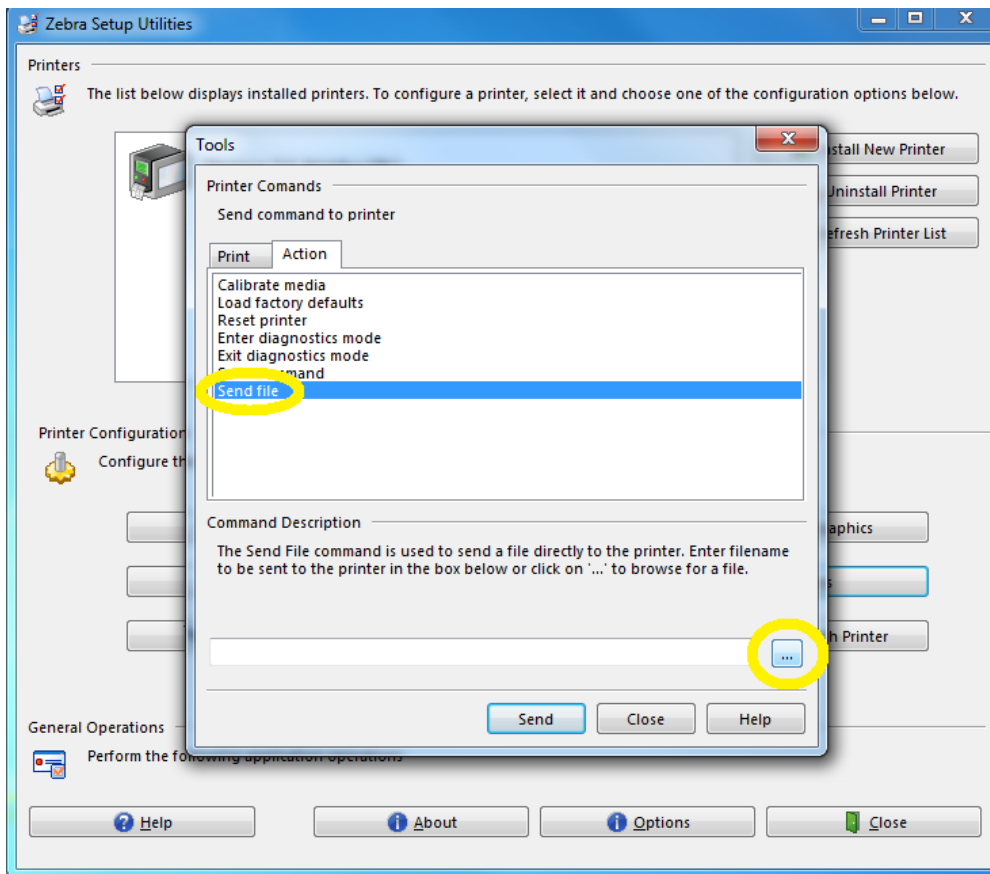

- 2.
3. When the screen asks you if you want this program to make changes to your computer you should click "yes"
4. Select "Open Printer Tools" from the main menu

- 5.
6. Select the "Action" tab

- 7.
8. Select "Send File" from the menu and click on the ellipses (...) next to the open line

- 9.
10. browse to the file you exported from sonyproject.com
11. press "Send" and the barcode printer will print the list of barcodes
